

# How to PLANT A TREE OR SHRUB

## Shopping List

Tree or Shrub  
Miracle Gro Quick Start  
Black Kow Manure  
Black Kow Compost

## Hole Prep

Dig hole twice as wide and the same depth as the pot that your plant came in. Remove most of the dirt from the hole and mix with a shovel full of compost and a shovel full of manure.

## Planting

Place your tree or shrub in the hole, making sure the top of the root ball is level with the ground. Fill in around the plant's root ball with the dirt mixture from step above.

## Care

Water immediately with a mixture of water & quick start as per the directions on the bottle and again in a week. Water with plain water daily for 2 weeks. Then every 3 days for 2 weeks. Then weekly for 2 months, tapering off to only during drought conditions.
