

Perennial Herbs

Rosemary ~ A woody shrub that will last for years. Looks great in flowerbeds. Taste great on poultry dishes.

Chives ~ Similar to onions but milder, they multiply freely and the more you use, the more they grow. Great for borders of beds.

Sage ~ Leaves are delicious on pork or sauted on their own. The rough leaves also add great texture to the garden.

Thyme ~ Fragrant groundcover. Use crumbled leaves on vegetables.

Oregano ~ Everybody loves dried oregano! Use in Italian tomato dishes. Low groundcover plant.

Tarragon ~ One of my favorite flavors but sometimes difficult to find. Great used in sauces. Very fragrant.
